HELLO!

Welcome to The International Association of Interviewers (IAI), the premier association in the world representing the profession of forensic interviewing. Our mission is to educate the global interviewing community by providing access to credible research, facilitating unique networking opportunities, and creating a platform for career advancement.

Additionally, IAI manages Certificated Forensic Interviewers (CFI) credentials. The CFI designation was developed to set the standard of what it takes to be an elite interviewer. Professionals who have worked to earn their CFI represent a prestigious group of individuals who are committed to advancing the field of forensic interviewing by promoting ethical, evidence-based practices for field application.

MEET OUR MEMBERS

IAI has over 6,500 members, representing more than 2,000 organizations from around the globe. In line with our mission, our member base is a blend of both academics and practitioners, all advancing towards the same objective – to learn from one another and promote an evidence-based evolution in the interviewing field.

MEET OUR PROFESSIONAL PARTNERS

IAI Professional Partners are independent organizations, each representing a unique mission and scope within the industry that aligns with the IAI core principles. IAI proudly supports these organizations through active promotions of their brands, and in return, they do the same for us.

Each Partner has a distinctive base of clientele, allowing them to promote content from IAI and IAI sponsors.

These affiliations serve to exponentially expand the reach of IAI visibility through each Professional Partner.
